

The 2021 University of Tokyo Activity Restrictions Index for Preventing the Spread of Coronavirus Disease 2019 (COVID-19)

Level	Research Activities	Classes (lectures, seminars, experiments, training)	Extracurricular activities for students	On-campus meetings	Campus gate closures
S					
A	Research activities can be conducted on the condition that the utmost measures to prevent infection are exercised.	While exercising the utmost measures to prevent infection, classes will be conducted both in person and online.	Some extracurricular activities are allowed, with the utmost consideration taken to prevent the spread of infection.	In-person meetings can take place with the utmost consideration taken to prevent the spread of infection. Online participation is encouraged.	In principle, only gates with guards present remain open, and entrants must show their Health Management Report.
B	Research activities can be continued; however, while taking the utmost consideration to prevent the spread of infection, students, researchers and research staff (laboratory staff) should stagger their work times, shorten the amount of time they stay on-site and, if possible, consider working from home in order to keep contact with others to a minimum.	Classes will be held mainly online; however, classes that are deemed to be more educationally effective when conducted face-to-face may be held in person (or a mixture of both online and in person) while exercising the utmost measures to prevent infection.	Some extracurricular activities are allowed, with the provision that the utmost consideration is taken to prevent the spread of infection.	Meetings should be held online when possible, and in-person meetings should be avoided unless necessary.	In principle, only gates with guards present remain open, and entrants must show their Health Management Report.
